Demolition of Wadham College Building, Iffley Road, Oxford

Progress Update 4
13th April 2017

Internal stripping out of the buildings is now generally complete.

Asbestos removal is continuing in parts of the garage building and flats in sealed areas.

Planning notifications are now resolved and demolition of the buildings will commence after the Easter weekend so more activity will become apparent.

Hopefully no disruption has been caused so far.

If you have any issues then please do give me a call.
