Demolition of Wadham College Building, Iffley Road, Oxford

Progress Update 12
9th June 2017

Works on the careful demolition of the end of the garage in Percy St are still progressing well and we have now removed the first floor slab in this area (see photos below).

Once this area has been taken down to ground level the rest of the building will be demolished using larger machinery and the rate of progress will speed up.

Asbestos removal is almost complete with one more area just awaiting HSE approval to be carried out.

If you have any issues then please do get in touch.
